VET IN HUNGARY

Three pillars of development of vocational training

Vocational Training 4.0 Strategy 2019

Act LXXX of 2019 on vocational education and training

Attractive environment

- "21st century vocational schools" development programme
- Modern sectoral workshops in schools to prepare for dual training
- Digital educational content

Career opportunities

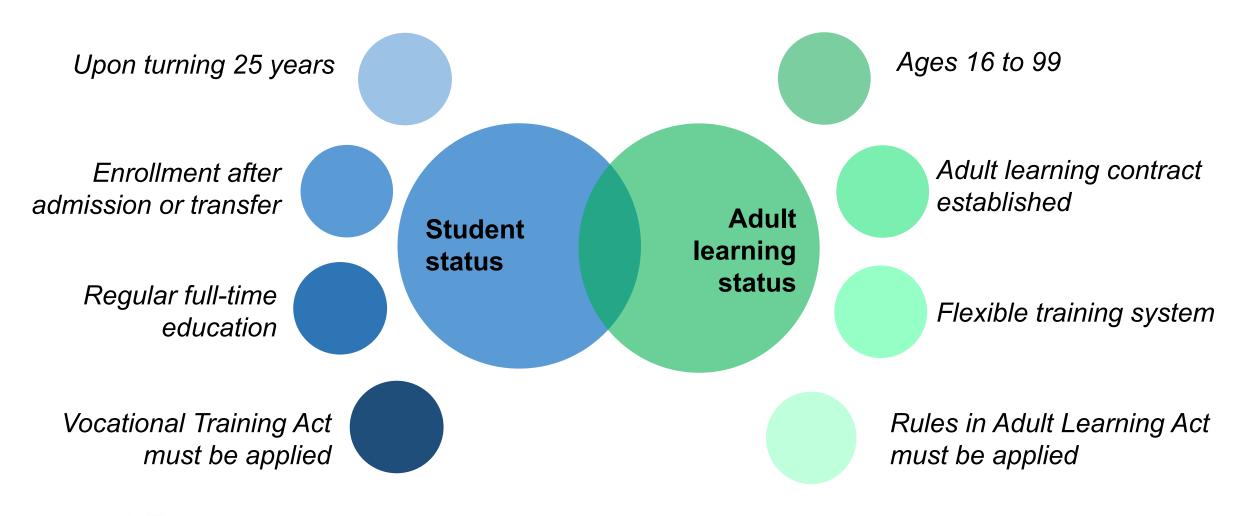

- Transparent, simple training structure for all
- 5 years of technical school, 5th subject for the baccalaureate, vocational exam is the fifth subject
- Easier route from technical school to higher vocational education
- Scholarship scheme

Instructors equipped with latest knowledge

- Professionals with latest knowledge teaching in schools under flexible conditions
- Company engineers can teach during working hours at dual education partner schools
- On-site accredited teacher training at companies

Participants in VET

Different paths in VET
